Washington, March 29.-Minister Conger has cabled the state department from Pekin that the Russian authorities have declared martial law at New Chuang and have formally notified all foreigners. Mr. Conger's message makes no reference to the reported hauling down of foreign flags by the Russians. The officials here assume that if this has been done it simply means that Russia has assumed the responsibility for the proection of foreign property belonging to the belligerents and that no effort will be made to interfere with the consular flags. Mr. Conger does not refer to the reported notice from the Russian authorities at New Chuang to the consuls that they may no longer exercise consular jurisdiction and consular functions, especially extra territorial jurisdiction. It is said that any such action has been taken it this treaty port under treaty stipula-tions with a sovereign power which is not a party to the war. It is not re-called, moreover, that it has been cus-tomary in time of war for a belliger-ent to undertake to deprive consuls of their functions.

Will Move Cautiously.

However, the state department is determined to move with the utmost circumspection and deliberation in taking any action or lodging any protest which might convey the impression that the United States was injecting itself into the present struggle. sion that the United States was injecting itself into the present struggle without the most pressing necessity. In fact, it is stated that it is the intention to let matters run along for a while in order to allow actual experi-ences to determine whether American interests really suffer from any of the acts taken by the belligerents in Man-churia as a result of these various notices and proclamations. Part of his policy is to refrain from pushing their posts Messrs. Cheshire and avideon, the American consuls at Mukden and Antung, respectively.

Mukden is an armed camp and Antung is in the very vortex of the war, and it is realized here that it might be embarrasing to the beligerents to have foreign consuls newly located there, especially as their coming could not be defended on the ground of trade necessity, for there is no trade at present between these towns and the United States.

The Chinese minister today notified Secretary Hay that Prince Pu-Len. the imperial Chinese minister to the World's fair, would sail tomorrow for his post from Yokohama.

An endeavor will be made in the ordinary way, and after the cessation of hostillities to secure compensation for such British merchants as are pecuniarily affected. It has not yet been decided wether the British consul will remain at New Chuang, but this matter is not considered of serious importance. It is pointed out at the foreign office that neither the United States nor Great Britain ever considered New Chuang neutral, and when Secretary Hay's note was received it was tacitly admitted that New Chuang might quite likely be one of the points of a Japanese attack and the Russians are considered quite within their rights in taking the necessary steps to prevent possible Japanese aggression.

Meeting of the German Monarch With

the Dowager Queen. Rome, March 29.-The meeting be tween Dowager Queen Margherita and Emperor William took place today. She left Rome at an early hour by special train for Terracina where an automobile was in waiting. Going swiftly to Gaeta, Queen Margherita harded the Italian battleship. Fey marded the Italian battleship Rey imberto, named after her dead hus-William, who was on his way fron Naples to Gaeta on board the imperial yacht Hohenzollern.
The two ships thus met out at sea.

The scene was picturesque, as many flags fluttered gaily in the air, the crews cheered and the bands played the national anthems of Italy and Germany. Emperor William immedi-ately boarded the Rey Umberto, and after half an hour's chat the queet accompanied him on board the Hoben zollern, where they had lunch.

The queen was heard to say as she left the Hohenzollern for the Rey Umberto: "Now, I have determined to visit Germany;" to which Emperor William replied, "As a friend, I hope."

Japan's Sea Training.

(London Telegraph.)

In the eleventh or twelfth century the Japanese were the most dashing pirates of the east; in fact, we might almost can them the vikings of the east. They used junks-small ships with a scrap of sail, but the little vessels in which the Dane-once raided our own coasts, or as the eraft which the Penzance Tishermen have today. With these punks the Japanese roamed the seas, going everywhere along the Chinese main, ravaging the coasts, trading and bringing nome pricetess works of art from China.

It was not until long afterward that the ruling authorities of Japan, under the great Emperor Hideyoshi, decided that it sulted their purpose to shut of communication with the outside world and to live to themselves, trading merely among their own islands. The old Japanese vikings were reduced to simple fishermen, and the period of internal feudatory wars began, for at that time at least Japanese would fight because they loved it.

AN OFFICER'S STORY OF THE FIRST SEA BATTLE.

Odessa, March 29 .- Information has been received here that the Russian steamship Malaya, with the survivors of the Russian cruiser Variag and the gunboat Korietz, passed the Dar-danelles today and will arrive here to-morrow. Preparations for the recepmorrow. Preparations for the reception of the survivors have been completed. The town will be decorated with bunting, and there will be grand inations especially commemorative of the Chemulpo fight,

St. Petersburg, March 29.-According to a letter received from an officer of the Russian gunboat Koriétz, which was destroyed by the Japanese at Chemulpo, his ship technically fired the first shot of the war, but this shot was not fired until after the Japanese had fired three torpedoes in an ef-fort to sink the Korletz.

The officer writes that on Feb. 8, without knowing that there had been even a rupture in diplomatic relations, the Korietz left Chemulpo for Port Arthur with dispatches from M. Pavloff, the Russian minister to Korea, and met the Japanese cruiser and orpedo squadron while still in neutral waters. Being unsuspicious, the Korietz steamed between the two divisons of the squadron with the tarpautraining their guns on the Russian vessel, but it was not until the torpedo boats began to maneuver preparatory to torpedoing that those on board the Korietz became really alarmed. It was then decided to put back into the harbor

While the Korietz was going about the Japanese launched a torpedo, which pased astern, and then the captain ordered "quarters" sounded. The tain ordered "quarters" sounded. The Japanese launched another torpedo, but it was only when a third torpedo given to open fire, and two shots were fired. The third torpedo sank just

cause of the bill. Mr. Underwood immediately presented a substitute which was a repeal clause for the desert land law.

Mr. Marshall of North Dakota made a point of order against this substitute, first, that it was a matter over which the committee did not have jurisdiction, and second, that it was not germane to the pending bill. The chairman sustained this point of order, and from his decision Mr. Underwood appealed. A meeting for further consideration of the matter has been called for Thursday.

The repeal of the desert land law, the timber and stone acts and the commutation clause of the homestead act is legislation which Mr. Reeder has been advocating. In the Georgia delegation they often recall the good old days when Hoke Smith was secretary of the interior and filled every place he had to fill with Georgians. They say that you couldn't throw a stick in the department without hitting a Georgia man.
One day, they relate, the late Senator
Voorhees, who had been vainly trying to get a place for an Indiana man, came down the corridor as Secretary Smith came up. The senator was whis-

Was a Russian Victory.

(Philadelphia Record.) The war between Russia and Japan The war between Russia and Japan has given rise to many reminiscences on the part of those who have met so-cially the representatives of both na-tions. A Philadelphia society girl, who has just returned from a visit to Washington, tells an amusing story of her introduction, at a semi-official reception, to one of the attaches of the Russian legation. "Of course I didn't catch his name," she said, in telling the story. "It seemed a mile long and twice as hard to pronounce. It sounded like 'bottle of whisky," with a count in front of it. Well, when I was introduced the him. I said in a localization "If I only knew it to be true, I would not hesitate a moment." This is a thought the average person has when reading the claims of some of the medicines that are advertised as

THROUGH THE BLOOD. Botanic Blood Balm (B. B. B.) has cure to stay cured more cases of Catarrh tha all other medicines combined. B. B. F. kills or destroys the awful catarrhal pois-on in the blood which causes the symp-toms, and thus makes a perfect lasting cure of the worst old cases.

SYMPTOMS.

The poison in the blood produces bad, offensive, fetid breath, bad teeth, and sickness of the stomach: in some cases womiting up clear phlegm: enlargement of the soft bones of the nose, affecting sense of smell, ulcerations of the mucous membrares, hawking, spitting up lumps, weak stomach, nose bleeding, headaches, snoring while asieep, stopping up of the nose; thin, het blood, all run down, specks flying before the eyes, low spirited, etc. Botanic Blood Balm (B. B. B.) forces its way through every blood vessel and vein, expelling all catarrhal poison that stands in its way: permanently removes every symptom and thus makes a perfect cure. B. B. B. sends a flood of rich, pure blood direct to the affected parts, giving warmth and strength just where it is needed.

Deafness, Ringing in the Ears, Head Noises.

Nearly all cases of Deafness are caused by Catarrhal Poison in the blood. The air passages become clogged by catarrhal deposits stopping the action of the vibratory bones. Thousands of sufferers from even total deafness have had their hearing permanently restored by taking B. B. B. for catarrh. B. B. B. gradually removes the catarrhal deposit from the air passages, thus making the nerves of the ear respond to the slightest sound. Ringing in the ears is one of the symptoms of approaching deafness and catarrh. B. B. B. never fails to remove ringing in the ears or head noises in a few weeks' time. If deaf or hard of hearing try Botanic Blood Balm (E. B. B.) It may be the very remedy your system needs.
